Mohammed Khalid

Front-end developer

+251 (961) 700304 | mkdiab58@gmail.com | Addis Ababa, Ethiopia | My Linkedin

PROFESSIONAL SUMMARY

As a self-taught front-end developer with nearly three years of diverse experience. I bring a passion for building intuitive and enjoyable web and mobile application interfaces to the forefront. Throughout my career, I've collaborated with clients in e-commerce, facility services, social networks, human resources, transportation & logistics, and fin-tech. This breadth of experience has equipped me with a versatile skill set and the ability to adapt to the unique challenges presented by different sectors.

What sets me apart as a front-end developer is my belief in the necessity of constant improvements to reach any goal. I ensure that my work meets functional requirements and performs at a high level.

AREAS OF EXPERTISE

- **Professional Skills:** Leadership, Communication, Collaboration, Mentoring, Stakeholder management, Team coordination, Remote work, Self-motivation, Adaptability, Flexibility, Attention to detail, Initiative, Results-driven, Continuous learning, Feedback provision

- **Technical Skills:** JavaScript, React.js, Redux, React Native, TypeScript, HTML, CSS, Data visualization, Performance optimization, Testing, Code reviews, Problem-solving, Scalability, Estimation, Asynchronous, Frontend technologies

PROFESSIONAL EXPERIENCE

Front–end Developer, [Devshop Studio](#) | A.A, Ethiopia   March 2023 – Present

As the only front–end developer, I took the responsibility of building the UI from the design template given to me, furthermore, I:

- Worked on every development project listed there
- Have proven problem–solving abilities and meticulous attention to detail, ensuring high–quality code delivery
- Displayed eagerness to contribute to team growth through mentoring, interviewing, and providing constructive feedback
- Am adept at optimizing frontend performance for fast rendering and smooth interactions, particularly with high data volumes

Front–end developer, Freelancing | A.A, Ethiopia   March 2021 – Present

Built responsive UI elements to guarantee optimal user experiences across various screen sizes and resolutions. Spearheaded the delivery, testing, and prototyping processes for various platforms and teams.

- Collaborated with diverse clients and diverse cross func teams.

- Used AI tools (like GPT) and design–to–code tools (like Figma's dev mode) to speed up my development time by more than half.

- Demonstrated leadership in managing large–scale front–end development projects, including task estimation and coordination with the rest of the development team.

EDUCATION

Bsc. Computer Science, HiLCoE School of Computer Science & Technology | A.A, Ethiopia

High School Diploma, Spring of Knowledge Primary and Secondary School | A.A, Ethiopia
